1. DEFINITIONS, TERMS AND ABBREVIATIONS

Organization – RIMET Adam Pędzich, Jarosław Pędzich General Partnership (or RIMET), registered office: ul. Świętojańska 175, Wyszków.

Manual – this Waste Sorting Policy.

Owners – the partners of the company.

2. PURPOSE OF THE POLICY

To ensure all activities comply with waste management regulations and to minimize the environmental impact of our production processes, especially regarding metal swarf and coolant use.

3. SCOPE OF APPLICATION

This manual applies to all organization's facilities, employees, contractors, and operations that generate or handle waste, consume resources, or affect the environment.

4. GENERAL RULES

- Comply fully with all relevant environmental laws and standards.
- Integrate environmental considerations into planning and decision-making.
- Prevent pollution and manage risks through proactive measures

5. WASTE HANDLING AND RECYCLIN

- Collect and segregate all metal chips, swarf, and other machining waste for recycling.
- Recover, filter, and reuse coolants where technically and economically feasible.
- Dispose of non-recyclable hazardous waste through authorized channels.

6. EFFICIENT USE OF RESOURCES

- Monitor and optimize energy, material, and fluid consumption in production.
- Implement process improvements to reduce waste generation at source.

7. EMPLOYEE AWARENESS AND ENGAGEMENT

- Conduct regular training on environmental responsibilities and best practices.
- Encourage suggestions and participation in environmental initiatives.

8. TRANSPARENT COMMUNICATION

- Report environmental objectives and progress to stakeholders openly.
- Maintain dialogue with employees, clients, suppliers, and authorities

9. CONTINUOUS IMPROVEMENT

- Review environmental performance quarterly to identify improvement opportunities.
- Update procedures in line with technological advancements and industry benchmarks..

10. SUMMARY

This manual formalizes the organization's commitment to sustainable operations by ensuring proper waste segregation, recycling, resource efficiency, and ongoing improvement. All staff and partners must adhere to these principles to protect the environment and comply with regulations.
